SUMMARY

Enthusiastic and detail-oriented final year B.Tech CSE student at KIIT Bhubaneswar with a good foundation in Java and C/C++. **Experience in applying Software Development Life Cycle (SDLC) concepts** through academic projects and internships, involving design, coding and debugging. Passionate about building efficient, scalable applications and eager to contribute to real-world problem solving at IBM. Strong communicator with the ability to collaborate effectively in diverse team environments.

WORK EXPERIENCE

Web Dev Intern at CloudOU   Jan 2025 - Mar 2025

- Developer 10+ reusable React components, **improving load times by 30% and reducing redundancy by 50%**
- Learning about API integration **implementing basic CRUD operations with FastAPI Postman**.
- Collaborated with a team to implement best practices in Frontend Development and state.

PROJECTS

Personal Portfolio Website   Link to Website

- Developed a fully responsive construction website clone using **React**, featuring Home, Services, and Projects pages.
- Designed a professional layout with intuitive navigation, call-to-action buttons, and high-quality visuals.
- Implemented an **AI-powered chatbot** to answer questions about my resume and background, enhancing interactivity.
- Utilized **Flexbox, CSS Grid, and responsive design techniques** to ensure seamless usability across devices.

Expense tracker   Link to Project

- Lets users **log expenses with descriptions and timestamps** for easy tracking.
- Displays a **clear list of all expenses along with the total amount spent**.
- Designed for a clean, responsive experience so it works smoothly across devices.
